Profile

Mobile app developer with 6+ years of experience shipping production iOS, Android, Flutter, and React Native apps for startups worldwide. 50+ client projects shipped, 140+ verified reviews, and 4.9★ average rating across Fiverr, Upwork, and LinkedIn. Vetted as a Top 3% Toptal talent in 2026.

I build lean, fast products for startups that need them shipped, not just planned. My work spans mobile apps, web and backend systems, AI integrations, OTT streaming, VoIP, offline-first workflows, and enterprise platforms.

Core services

- **Mobile apps:** iOS, Android, React Native, Flutter, Expo; from MVP to App Store.
- **Web and backend:** Next.js, Node.js APIs, full-stack MVPs, SaaS products, databases, and production infrastructure.
- **AI integration:** Chatbots, recommendation engines, and workflow automation built around real product value.

Selected shipped work

- **NAZ Marine** — Local-first ERP and marine financial system with accounting, billing, inventory, payroll, and Zakat workflows. React 18, TypeScript, Node.js, Express. 47 screens shipped and invoice generation under one minute.
- **2nd Number** — HIPAA-compliant business telephony app with virtual numbers, texting, voicemail, and call recording. React Native, SIP, WebRTC. 500K+ active users and 99.9% call success rate.
- **KCWX TV** — OTT streaming platform for live television and video-on-demand across mobile and connected TVs. Flutter, HLS, ExoPlayer. 99.98% stream uptime.
- **Checkbob** — Offline-capable field audit and inspection tool for construction managers. React Native, TypeScript, SQLite, offline sync. 60% time saved and 10K+ reports exported.

- **APlus Caribbean** — Social and dating platform with real-time chat, video calls, and location matching. Flutter, Firebase, Node.js, MongoDB. 50K+ active members.
- **CopVPN** — Secure iOS and Android VPN with WireGuard and OpenVPN. React Native and TypeScript. 100K+ downloads and a 4.6★ rating.

Experience

- **2026 — Toptal:** Cleared a multi-stage vetting process as a Top 3% global freelance software developer.
- **2025 — Software consultant:** Delivered mobile architecture, AI integrations, and high-performance platforms for international founders and startups.
- **2024 — Micro-SaaS founder:** Shipped Rotting, a 13-language App Store mindfulness app, and TempShield, a disposable email detection API SaaS.
- **2023 — Scaled products:** Architected CopVPN and expanded global client deliveries through Fiverr, Upwork, and direct partnerships.
- **2022 — Independent developer:** Built KCWX TV streaming across mobile and connected TVs and contributed to enterprise VoIP platforms serving 1M+ users.
- **2021 — Zultec:** Engineered enterprise asset, inventory, attendance, admin, and barcode/RFID price-checking applications.
- **2020 — AVENTLE Private:** Built native Android applications in Java and Kotlin and automated CI/CD build and deployment pipelines.
- **2019 — Phoenix Technologies:** Began professional career engineering fintech mobile applications for Middle East clients.

Technologies

React Native · Flutter · Expo · iOS · Swift · Android · Kotlin · Java · TypeScript · JavaScript · Next.js · Node.js · Express · React · PostgreSQL · MongoDB · Firebase · GraphQL · AWS · WebRTC · SIP · HLS · WireGuard · OpenVPN · SQLite · Docker

Working principles

Understand before building. Treat architecture as the foundation. Test as you go. Make communication a feature. Own the outcome. Prefer simplicity over unnecessary complexity.
